HOW CAN YOU OBTAIN MEDICAL MARIJUANA IN FLORIDA?

Low-THC (CBD) and Full-Strength Medical Marijuana
Approved for patients suffering from:

- cancer,
- epilepsy,
- glaucoma,
- positive status for HIV,
- AIDS,
- PTSD,
- ALS,
- Crohn's disease,
- Parkinson's disease,
- multiple sclerosis,
- medical conditions of the same kind or class as the preceding,
- a terminal condition, and
- chronic nonmalignant pain.

If you suffer from one of the qualifying conditions, you may visit a certified physician to receive a medical marijuana certification.

For a list of certified physicians in your area, visit:

https://www.curaleaf.com/find-a-doctor/

APPLYING TO BECOME A QUALIFIED PATIENT

Prior to issuing a physician certification to a patient, a physician must:

- Conduct an in-person physical examination of the patient and a full assessment of the patient's medical history;
- Diagnose the patient with at least one qualifying medical condition;
- Determine that the patient's use of marijuana would outweigh the risks;
- If the patient is under the age of 18, two physicians must make this determination;
• Determine whether the patient is pregnant;
• Physicians may only certify pregnant patients for low-THC cannabis;
• They physician will register the patient in the Medical Marijuana Use Registry (MMUR).
• VERY IMPORTANT: Ensure your ordering physician has entered your email address into the Medical Marijuana Use Registry. Both patients and legal representatives need to be entered into the registry by a qualified physician:
  o Find the email from the registry in your inbox. This will allow you to begin an application.
  o Be sure to check the information completed by your physician for accuracy. If it is inaccurate, contact your physician to update it.
  o Visit https://mmuregistry.flhealth.gov/ and log in using your email address and complete and sign your application.
  o After you have completed an application, mail your check or money order to the Office of Medical Marijuana Use. Online payment is currently not available. When you mail a check or money order for online application submission, please make sure to sign your check or money order, include your name and patient ID number.

• At the same time as your application is being processed a physician must enter the contents of the certification (or order) in the MMUR, including the qualifying condition, the dosage not to exceed the daily dose amount determined by the DOH, the amount and forms of marijuana authorized for the patient, and any types of marijuana delivery devices needed by the patient. They must also update the registry if any changes are required.

Informed Consent
In addition to the criteria detailed above, a physician must also obtain the patient’s voluntary and written informed consent each time he or she issues the patient a physician certification. The physician must use a state standardized form and, if the patient is a minor, the physician must also obtain the consent of the patient’s parent or legal guardian.
